

WORLD BANK FUNDS 2020 PROJECTS FOR NGONG MUNICIPALITY

A. Identifying Key Projects

Summary of Participants input from 18th April 2020 to 22nd April 2020 9.00am

Preview by Mheshimiwa Parsimei that Municipalities are managed differently in terms of Governance and Accountability. Importance of citizens participation emphasized in identifying and prioritizing on development projects, offering solutions and cost effective options. “Moderating Ngong Municipality Development”

“If **Ngong Municipality (NM)** meets the **World Bank** requirements within the next two months (or less) there is a possibility of getting the **WB funding** for approx **Kshs.215 million for development.**”

Summary of Development Areas posted

1. Municipality Policy and Review
2. COVID-19 consideration as projects are identified
3. Manufacture most of the things being used instead of importing. VET can be used. Mr Wangora and Ngong Manager to advice.
4. Ngong outskirts to have better infrastructure i.e. sewer lines and county water supply which should be cheap and reliable.
5. Health: government health facilities should be well equipped for basic services e.g. laboratories, x-ray. In addition there should the main one equipped with ICU, MRI and a theatre.
6. Public Primary Schools: pathetic state of classrooms, toilets and fields.
7. Drainage and sewerage systems to be looked into avoiding an occurrence like in Umoja Road. This was seconded as County water supply and proper sewer system.
8. Proper usage of utilities: Market and Stadium/playground
9. Rehabilitation of roads within Ngong and Surroundings (4)
10. Equipping of hospitals (5)
11. Schools and government colleges (6)
12. Vet to be more proactive and promote farming around and social responsibility projects
13. Municipality responsibility: Manage the streets/roads by making them cleaner, safer and without obstructions; Ensure shopping verandahs are free; Traffic parking space for parking; Designate car repair zone.
14. SGR: Poor drainage, lack of secure park, board space, impassable roads therefore the station inaccessible. Health (5); Sewerage and drainage (7); market (8).
15. Health: A fully structured and equipped referral hospital by converting Saitoti Hospital in Nkaimurunya into a state of the art medical facility. Nkaimurunya/Rongai wards – medical specialist zones (5). Ngong/Oloulua/Lower Wuaso – market hub (8); promote light industries in the beef industry 2020/2021 – Kiserian/Olkeri/Keekonyokie; Value chain addition industries 2021-2022 (3)
16. Deplorable road conditions (9), (13), (14)
17. Healthy facility: develop and equip (5)
18. Roads allocation (9)
19. Education on Municipality core mandate, role, responsibilities and fund sourcing etc

20. Concern on: sewerage (7) projects/proposals for Kiserian, Ngong and O/Rongai stalled (9); health facilities (5)
21. Legal entity
22. Confirmation of COVID-19 case in the county
23. Action in regard to COVID-19 case
24. Budget for pandemic
25. Confirmation of budget and fears of misuse
26. Monitoring and evaluation tools (expenditures)
27. Registering legal entity (21)
28. Proposal to stick with Kajiado North Citizen Participation Forum
29. Insight on Kajiado North PHOs
30. Women Rep offices?
31. Call for a COVID-19 stakeholder's forum for Kajiado North to be constituted - clarification sought.

Key areas as per the issues outlined:

(a) Health Facilities

(b) Infrastructure: Roads
 Sewerage
 Water supply

(c) Manufacturing: budgetary allocation for 2020-22

(d) Policy – role and responsibilities of the Municipality
